

PA SYSTEM

A system adequate to the sound-covered area, properly installed and tuned, is required.

FRONT CONSOLE

Please provide a Behringer X32/Midas M32 or Behringer WING console, as the band has its own Behringer X32 Core monitor console with stageboxes:

SD16 (In 1-16, Out 1-8)

SD8 (In 17-24, Out 9-16).

The MON console is placed near the drums. We use digital signal splitting (the clock source is the MON console). Please provide a twisted-pair cable with Ethercon connectors to connect the front console (**AES50 A connector**) to the monitor console (**AES50 B connector**).

If there is a problem with providing the microphones mentioned above, please contact us. We allow the use of other similar class mics.

MONITOR CONSOLE

The band has its own Behringer X32 Core monitor console along with stageboxes:

SD16 (In 1-16, Out 1-8)

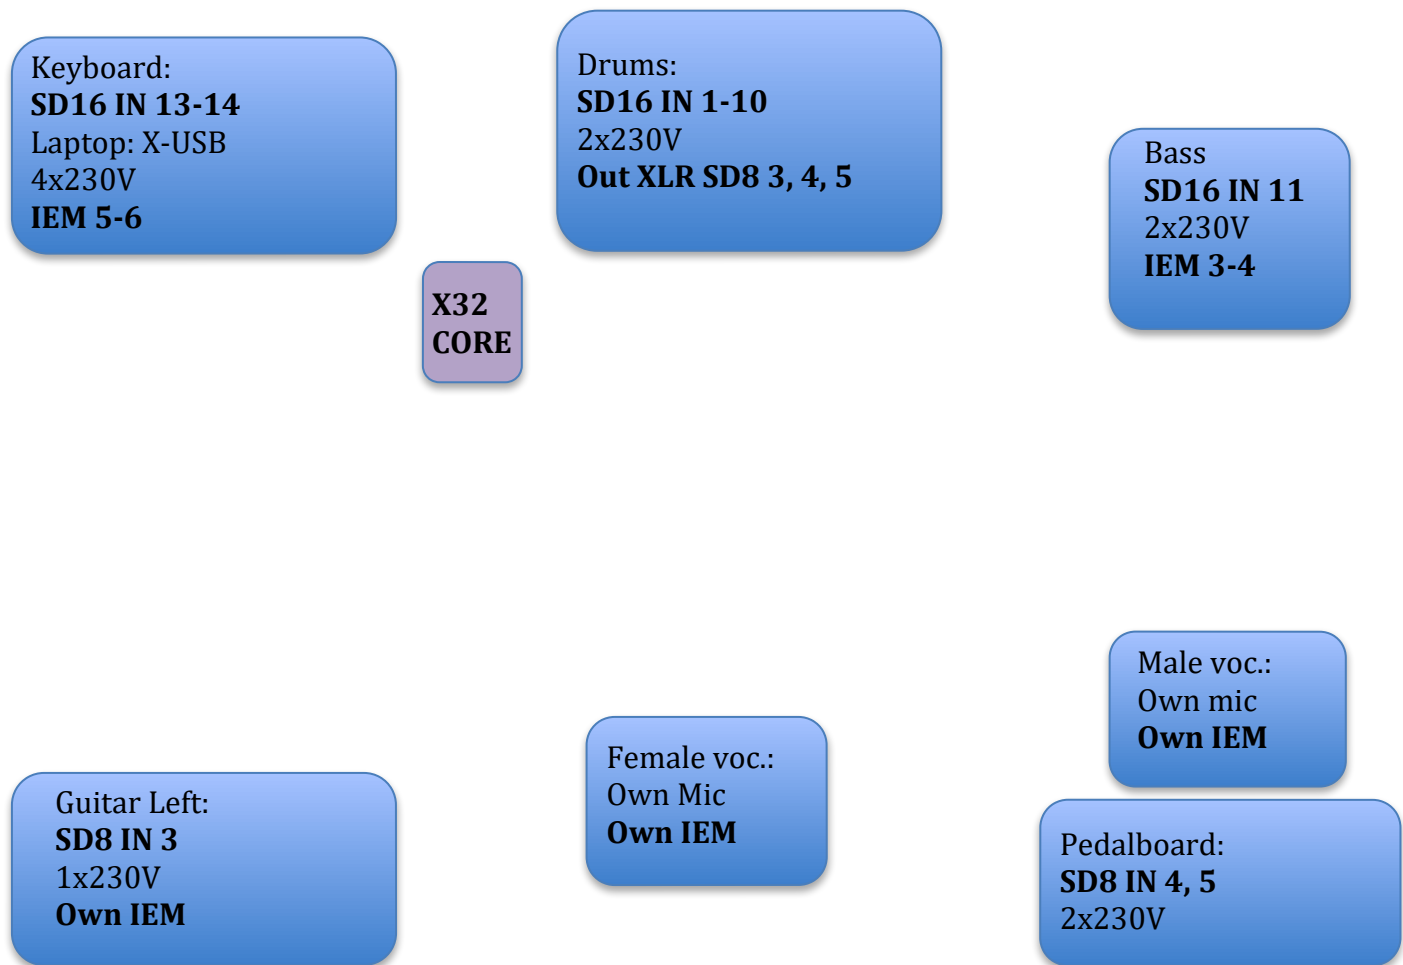

SD8 (In 17-24, Out 9-16).

Please provide two stereo IEMs for the Bassist and the Keyboardist (we prefer the Mipro MI-58).
